

Location and Access 3.1

Locate Sources

Key Question: Where can I find these sources?

In Location & Access 3.1, locate the sources you need to successfully complete the task.

Finding Information Sources

Use each of the following search engines to search for your topic, then compare the results. If you use good search techniques when you use search engines, you can easily locate a pertinent website and often zoom in on the information you need. When you use different search engines, you are able to determine which one has the best information for your project and which one will help you the most.

Topic: _____

<p>Yahooligans www.yahooligans.com</p>	<p>Number of hits: _____ Usefulness of hits: <input type="checkbox"/> WOW! I can use almost everything. <input type="checkbox"/> Pretty good, I can use some. <input type="checkbox"/> Poor, I can't use very much. Speed of Results: <input type="checkbox"/> Super Fast! <input type="checkbox"/> Medium <input type="checkbox"/> Too Slow</p>
<p>Google www.google.com</p>	<p>Number of hits: _____ Usefulness of hits: <input type="checkbox"/> WOW! I can use almost everything. <input type="checkbox"/> Pretty good, I can use some. <input type="checkbox"/> Poor, I can't use very much. Speed of Results: <input type="checkbox"/> Super Fast! <input type="checkbox"/> Medium <input type="checkbox"/> Too Slow</p>
<p>Other Search Engine of my choice URL: _____</p>	<p>Number of hits: _____ Usefulness of hits: <input type="checkbox"/> WOW! I can use almost everything. <input type="checkbox"/> Pretty good, I can use some. <input type="checkbox"/> Poor, I can't use very much. Speed of Results: <input type="checkbox"/> Super Fast! <input type="checkbox"/> Medium <input type="checkbox"/> Too Slow</p>
