

Use of Information 4.2

Extract Relevant Information

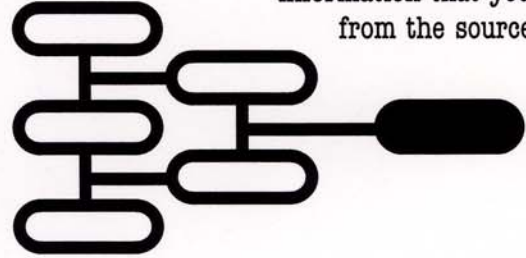

In Use of Information 4.2, pull out the relevant information that you need from the source.

Key Question: What information from the source is useful?

Summarizing Website Information

Use this checklist to extract information for your report. Websites are great for current information, but be careful about accuracy and make sure the source is reliable.

URL: _____

Citation:

Author(s): _____

Title: _____

Date: _____

Summary:

What are the main points?

What facts can I use?

Quotes I may use:

Statistics I may use:

Other useful information:
